

## Georgia Association of Student Councils

[www.georgiastuco.com](http://www.georgiastuco.com)

Promoting the activities and accomplishments of the Georgia Association of Student Councils gives our state the chance to see the great things happening in our programs and helps us highlight the power of student leadership. Therefore, representatives of GASC may periodically photograph, videotape, and/or interview students in connection with GASC programs or events for appropriate printed/online publications, newsletters, news releases, website stories, videos, social media, and other GASC publications.

For programs beginning after January 1st, 2024, GASC has implemented an “opt-out” media policy. This means that unless your child has a signed MEDIA RELEASE OPT-OUT form on file, your child’s photo/image/interview may be used in any of the prior stated appropriate media capacities. In other words, participation in our programs and events will be deemed as a default expression of consent and authorization to use their likeness and quotes unless we are specifically informed otherwise.

**WE ALWAYS WANT TO RESPECT THE PRIVACY WISHES OF ALL OUR FAMILIES.  
To exercise your right to NOT allow GASC to publish pictures of your minor children,  
please complete and sign this form below.**

- I DO NOT give permission for GASC or its representatives to publicly publish photographs or videos where my child is prominently featured for the purposes of promoting its programs. (I understand my child may incidentally appear in the background of photos of other children or as an audience member if they attend a GASC event.)
